**STATEMENT OF FACTS IN SUPPORT OF AMENDMENT AND PETITION PURSUANT
TO 37 CFR 1.48(a) TO ADD TO ORIGINAL NAMED INVENTORS**

Commissioner of Patents and Trademarks
Washington, D.C. 20231

Sir:

The undersigned, joint inventors of the subject matter which is claimed in the above-captioned patent application, hereby declare the following statement of facts:

1. Without any deceptive intention of the part of the actual inventors, the above-captioned application was originally filed with a declaration naming Chung-Wai Chiu, Matthew J. Henley and James P. Zallie as the joint inventors of the subject matter claimed therein.

2. Approximately two months before the application was filed, it was suggested that Roger Jeffcoat may have made a contribution to the invention. However, upon review of the suggestion at that time by Applicants' Attorney it was determined that Roger Jeffcoat was not an inventor.

3. The originally named inventors executed the Declaration in the belief that they were named correctly as the joint inventors of the invention claimed in the above-captioned patent application.

4. In March and April, 1991 while reviewing the patent application for foreign filing and while preparing a response to the first office action herein, the suggested contribution of Roger Jeffcoat was reviewed again.

5. In a meeting on April 8, 1991, between Applicants' Attorney, Chung-Wai Chiu, Matthew J. Henley and Roger Jeffcoat, it was determined that Roger Jeffcoat had made a contribution to the portion of the invention relating to a process for preparing the bulking

agents. (Claims 12-18 herein).

6. It was first discovered at the April 8, 1991, meeting that an error had been made in omitting Roger Jeffcoat as a co-inventor.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that the statements were made with the knowledge that willful false statements and the like made are punishable by fine or imprisonment or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the above-captioned application or any patent issued thereon.
